## WORK EXPERIENCE

### Golf Course Grounds Maintenance Specialist

#### Clublink

📅 May 2023 - September 2023

📍 Whitchurch-Stouffville, ON

- Thrived in fast-paced environments, efficiently handling urgent landscaping tasks such as repairing course features before major events or tournaments.
- Collaborated seamlessly with fellow landscapers, groundskeepers, and other staff to accomplish shared goals and maintain the golf course's overall appearance and functionality.

## PROJECTS

### QUANTT

#### Quantitative Machine Learning Model Analyst

📅 October 2023 - current

- Spearheaded the design and development of advanced quantitative machine learning models to analyze financial market trends, employing statistical methods and algorithms to generate actionable insights for investment strategies.
- Employed statistical tools and programming languages such as Python and R to process large datasets and derive valuable quantitative insights.

### Queens AutoDrive

#### Simulation System Developer

📅 September 2023 - current

- Played a crucial role in detecting and addressing potential system vulnerabilities by simulating complex real-world situations, ensuring the machine learning model's reliability in a variety of conditions.
- Worked closely with machine learning engineers to integrate simulation platforms seamlessly with the self-driving car's machine learning models, facilitating efficient testing and iterative development cycles.

## CAREER OBJECTIVE

Dedicated second year computer science student with a strong command of a plethora of coding languages, seeking to be a summer intern. Eager to bring my ability to develop, test, and maintain software to a dynamic team that values innovation.

## EDUCATION

Bachelor's of Science

Computer Science

#### Queens University

📅 September 2022 - current

📍 Kingston, ON

## SKILLS

- Python
- R
- Java
- JavaScript/Node
- HTML / HTML 5
- C
- CSS
- C++
- Vim
- Git
- Linux
- Tensorflow
- PostgreSQL
- MySQL
- Hugging Face + LLM
